Our Legacy

In 1979, Om Parkash Walia laid the foundation of Aries Engineers, branching out from a traditional family business specializing in vices and machine tool equipment. Armed with hard work, deep devotion, and a forward-thinking attitude, he launched the "Aries" brand. From day one, his vision was clear: to deliver top-tier products at competitive prices in the quickest time possible. This remains the guiding motto of the Aries family today.

Evolution & Growth

In 1993–94, his son, Suresh Walia, joined the business, bringing fresh energy and a shared determination to elevate his father's legacy. A company that began with Bench Vices, Machine Vices, and basic machine tool accessories has transformed into a dynamic enterprise. Today, our expanding product line is driven by innovative next-gen ideas and an ongoing passion to explore new frontiers in the machinery market.

A Note of Gratitude

To our dear friends and partners: we are deeply grateful for your unwavering support and contributions over the decades. Our journey and success would truly be impossible without you. As we move forward, we look forward to your continued partnership and well-wishes, allowing us to serve you better and build a prosperous future together.

Thanking You,
Aries Engineers

SURESH WALIA
(Managing Director)
